EDUCATION

Bachelor of Tecnology (B.Tech) IN A.I.M.L. AJAY KUMAR GARG ENGINEERING COLLEGE CGPA : 7.88	2021 – 2025 Ghaziabad, India
Class XII DELHI PUBLIC SCHOOL MATHURA ROAD Percentage : 93.6	2020 – 2021 New Delhi, India
Class X DELHI PUBLIC SCHOOL MATHURA ROAD Percentage : 91	New Delhi, India

SKILLS

Languages — Python | Flask | Django | R | SQL | HTML | CSS | C | Java | Javascript
Developer Tools — Github | Google Colab | Kaggle | VS Code | Anaconda | LabelStudio
Personal Skills — Adaptibility to Dynamic Environments | Strong Verbal and Written, Communication Skills | Time Management Skills | Presentation Delivery | Problem Solving Skills | Strategic Thinking
Platforms — Linux | Windows | Github | Git | Hugging Face
Productivity Tools — Microsoft Office | Google Workspace | Agile
Additional Skills — Machine Learning | Deep Learning | NLP | LLM | Keras | Tensorflow | Pytorch | FastAPI | Pipelines | Selenium

PROFESSIONAL EXPERIENCE

Data Science Intern <i>Unified Mentor</i> • Learned implementation of various data analysis tools. • Implemented cleaning, processing, visualisation of data. • Utilised data visualisation tools such as tableau, powerBI.	05/2024 – 07/2024 Ghaziabad, India
A.I.M.L. Intern <i>Bisag-N (Ministry of electronics and information technology)</i> • Developed and delivered live projects, increasing efficiency by 20%. • Communicated with government officials from various ministries understanding project needs and exhaustible resources. • Collaborated in teams, led with character and produced deliverables.	07/2024 – present New Delhi, India

PROJECTS

AI Chatbot <i>Gen AI, Machine Learning</i> • Utilised offline LLMs to make query/answer calls for user queries • Implemented route for json requests between react frontend and flask backend. • Improved NLU of the chatbot by integrating BART with Phi-3.
--

PM Gatishakti(Rooftop segmentation)

Developed in Internship

- Utilized deeplab V3 plus to improve segmentation accuracy by 15 percent.
- Implemented Gradio interface to display the predicted available rooftops in a satellite imagery.
- Estimated solar rooftop potential for an area dynamically.

Emotion Driven Playlist Generator

Final year project

- Developed the entire stack for web app capable of detecting user emotions through audio,video,text and generation of playlists with **spotify developer tools**.
- Filed patent for research paper.
- Developed efficient caching from models and reduced CPU offload by **20 percent**.
